

Super Admin Dashboard – User Operating Guide

1. Introduction to Super Admin Control

The **Super Admin Control** workspace is the highest-level management portal in the Case Management Website. It provides complete oversight over firm-wide performance, administrative user access, active case velocity, quality control reviews, system security logs, and financial transactions.

2. Navigation Menu & Working of Every Section

The Super Admin sees a customized left sidebar with the following menu items:

SUPER ADMINISTRATOR CONTROL

 Dashboard

 Clients

 Admin Management

 All Cases

 Documents

 Reviews & Approvals

 Communication

 Payments

 Reports

 Settings

- Firm-wide overview & metrics

- Client database management

- User access control & audit logs

- Master case list across the firm

- Global document vault & evidence repository

- QA signoffs & petition audit queue

- Messaging hub & WhatsApp live chat

- Revenue, invoices, & billing milestones

- Stage velocity & approval analytics

- Global system configuration & firm details

3. Detailed Menu & Button Directory for Super Admin

1. Dashboard (Dashboard Tab)

- **Purpose:** Overview of all firm operations and high-level activity.
- **What you see:** Active case cards, total clients counter, pending review count, active task count, and real-time activity log feed.
- **Buttons & Their Actions:**
 - 🗨️ **Babel AI Petition Drafter** (Top Header/Sidebar) → Opens the **AI Assistant Modal** to run AI legal analysis, summarize evidence, or generate template drafts.
 - 🔔 **Notifications Bell** (Top Header Right) → Opens the **Notifications Panel** showing recent system-wide updates.

-  **Role Switcher Dropdown** (Top Header Right) → Allows switching role view to Admin, Writer, Reviewer, or Client for demonstration.
 -  **Create New Case Button** → Opens **New Case Creation Modal** to initialize a case across the firm.
 -  **Add New Client Button** → Opens **New Client Onboarding Modal** to register a new client profile.
-

2. Admin Management (**Admin Management** Tab)

- **Purpose:** Managing administrative staff accounts and auditing security activity logs.
 - **What you see:**
 - **System Users Table:** List of all Administrators, Drafters, and QA Reviewers, their email addresses, assigned roles, and status.
 - **Audit Log Entries:** Timestamped log of every action taken in the system (case creation, stage changes, document uploads, role modifications).
 - **Buttons & Their Actions:**
 -  **Add New Admin / User Button** → Opens user registration modal to create new Admin, Writer, or Reviewer accounts.
 -  **Edit Role / Permissions Button** (Next to user row) → Opens permission editor to adjust user access rights.
 -  **Deactivate User Button** (Next to user row) → Temporarily suspends user access to the platform.
 -  **Search Activity Logs** → Filters system audit logs by user email or action keyword.
-

3. All Cases (**All Cases** Tab)

- **Purpose:** Master view of every active, pending, or completed case across the entire firm.
 - **What you see:** Table and card grid of all cases showing Case Number, Client Name, Petition Category (EB-2 NIW, EB-1A, O-1), Current Stage (1 to 14), Assigned Writer & Reviewer, and Risk Level.
 - **Buttons & Their Actions:**
 -  **Create New Case Button** → Opens the **New Case Creation Modal**.
 -  **Case Search Bar** → Live search by client name, case number, or field category.
 -  **Filter by Petition Category Dropdown** → Filters cases by *EB-2 NIW*, *EB-1A*, *O-1*, *Resume Building*, etc.
 -  **Filter by Risk Level Dropdown** → Filters cases by *High Risk*, *Medium Risk*, or *Low Risk*.
 -  **View Case Details / Open Case Button** (On case card/row) → Opens full Case Detail view showing Dhanasar prongs, recommenders, tasks, and document exhibits.
-

4. Clients (**Clients** Tab)

- **Purpose:** Comprehensive database of all registered clients and petitioners.
 - **What you see:** List of clients with their name, email, phone number, field of expertise, highest degree, publication count, and status (*Active, On Hold, Approved, Archived*).
 - **Buttons & Their Actions:**
 -  **Add New Client Button** → Opens **New Client Form** to register a new client.
 -  **View Profile Button** → Opens client profile summary including linked cases and uploaded credentials.
 -  **Edit Client Button** → Opens client details modal to update contact info, field of expertise, or degree credentials.
-

5. Reviews & Approvals (**Reviews & Approvals** Tab)

- **Purpose:** Oversight of quality control signoffs and petition reviews.
 - **What you see:** Queue of submitted recommendation letters and petition memorandums awaiting senior review.
 - **Buttons & Their Actions:**
 -  **Review Submission Button** → Opens legal review modal to read petition drafts and reviewer notes.
 -  **Approve Signoff Button** → Grants final legal approval for petition package assembly.
 -  **Request Revision Button** → Sends petition draft back to Drafter with specific comments.
-

6. Communication (**Communication** Tab)

- **Purpose:** Firm-wide message management and WhatsApp live chat.
 - **What you see:** Active message threads per case, communication history, and live chat logs.
 - **Buttons & Their Actions:**
 -  **Messaging Hub Logs Button** (Sidebar sub-menu) → Displays full message logs between clients and legal teams.
 -  **WhatsApp Live Chat Button** (Sidebar sub-menu) → Opens the **WhatsApp Live Chat Modal** for instant direct messaging.
 -  **Send Message Button** → Sends in-app notification and message to selected client or team member.
-

7. Payments (**Payments** Tab)

- **Purpose:** Overview of firm revenue, billing milestones, and payment processing.
- **What you see:** Financial summary metrics (Total Revenue, Paid Amount, Pending Invoices, Overdue Payments) and invoice table.

- **Buttons & Their Actions:**
 -  **Record Payment Button** → Opens payment entry modal to log received payments.
 -  **Download Receipt Button** (On invoice row) → Downloads official payment receipt as PDF.
 -  **Filter Payment Status Dropdown** → Filters list by *Paid*, *Pending*, or *Overdue*.
-

8. Reports & Settings (**Reports** & **Settings** **Tabs**)

- **Purpose:** Performance analytics and global firm settings.
 - **What you see:** Case velocity charts, stage distribution metrics, approval rates, global petition templates, and firm profile settings.
 - **Buttons & Their Actions:**
 -  **Export Report Button** → Downloads firm performance report as spreadsheet/PDF.
 -  **Save System Settings Button** → Saves global firm name, logo, default service centers, and notification rules.
-
